FREE Lunch & Learn

Increase Safety & Reliability

Tuesday, May 9 -

11:30 am-1pm 144 NE

44th St. Okc, OK 73105

Electrical power is the pulse of your plant. It's vital to your operations - but also dangerous and costly. When your electrical assets fail, profits and people can suffer.

Who should attend?

- Safety Personnel
- Engineers
- Electricians
- Maintenance Personnel
- Management Personnel
- Repair Technicians

The Lunch & Learn is an interactive hour and a half session with the focus how to keep your team working safely and efficiently through introducing the participant to NFPA 70E, electrical safety in the workplace, as well as NFPA 70B, recommended practice for electrical preventive maintenance.

Participants will receive this training through the use of a power point presentation, video clips, handouts, as well as have an opportunity to sample arc flash related Personal Protective Equipment (PPE).

During this informative 90 minutes the participant will be introduced to:

- Causes and dangers of an electrical arc flash
- Arc Flash hazard reduction, minimization, and PPE
- Steps in performing an arc flash hazard assessment
- How to increase the life of your facilities electrical assets
- Technologies that can help reduce maintenance costs and minimize unexpected downtime

FREE - includes meal and training

24 spots are available -RSVP by May 6th by calling 405-503-9197 or emailing sjudkins@shawver.net
