

Shawver & Son Inc.

ELECTRICAL CONTRACTING ENGINEERS

PO BOX 18778 • OKLAHOMA CITY OK 73154-0778
(405) 525-9451 • FAX (405) 525-6136

Core Capabilities:

- **Electrical Infrastructure** – Planning, design, and installation of power distribution systems.
- **Low Voltage & Technology Solutions** – Design and installation of structured cabling, audio-visual systems, fire alarm, nurse call, and security systems.
- **Building Control Systems** – Design, programming, and integration of automation and smart building technologies.
- **Pre-Construction Services** – Pre-fabrication, design-build, and project support for streamlined execution.
- **Power Quality & Energy Solutions** – Power quality studies, power factor correction, and customized energy-saving strategies to reduce operational costs.
- **TEGG Preventative Maintenance & Testing** – Infrared imaging, ultrasonic testing, breaker testing, conductor testing, and transformer diagnostics to enhance system reliability.
- **Arc Flash / Coordination Studies** – Short-circuit current analysis, arc flash hazard analysis, safety component evaluations, and one-line drawings.
- **NFPA 70e Training** – We can educate you and your employees about arc flash safety requirements and procedures.
- **Instrumentation / Calibration** – Calibrate pressure, flow, temperature, level, chart recorders and analytical devices utilizing state-of-the-art instrumentation calibration equipment. EPRI member since 2005.
- **24 / 7 Electrical Service** – 24-Hour on call service team. Fleet of well-equipped service vehicles. 45' and 55' "bucket" trucks for parking lot lighting repair.

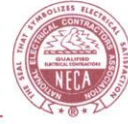

Differentiators:

- Over a century of expertise (Since 1919).
- One of the largest and most respected electrical contractors in the Southwest.
- Proven track record in large-scale and complex electrical projects.
- Advanced technology and energy-efficient solutions.
- Commitment to safety, quality, and client satisfaction.
- Fully trained and certified workforce.
- Dedicated 24/7 emergency service department.
